

DELIVERING BETTER HEALTHCARE

The Peninsula Medicare Urgent Care Clinic is a bulk billed, walk-in medical service, for children and adults for when you are too sick for the GP but not sick enough for the emergency department.

The clinic is open 7 days a week, with extended operating hours, and has seen close to 12,000 patients since opening in 2023.

“Our area needs another Medicare Urgent Care Clinic so even more people can access a bulk billed doctor”.
